SUMMARY:

As a skilled backend developer specializing in Laravel, CodeIgniter, Spring Boot I focus on building scalable, high-performance web applications & RESTful APIs. With extensive experience in backend development, I am passionate about crafting solutions that are robust, efficient, and tailored to the unique needs of clients. Since joining Satmat Technologies in June 2022, I have consistently contributed to the creation of dynamic web applications, ensuring seamless functionality and optimal performance.

PROFESSIONAL EXPERIENCE

Satmat Technologies, Pune

June 2022 - Present

Senior Web Developer

April 2025 – Present

- Promoted to Senior Web Developer based on consistent performance and leadership in backend development.
- Led Backend Development: Designed and implemented RESTful APIs for seamless Android app integrations, ensuring high reliability and performance.
- Responsible for server management, database optimization, and production-level project management.
- Managing API performance, debugging production issues
- Backend Leadership: Directed backend development using Laravel and CodeIgniter, Spring Boot optimizing system performance, security, and scalability.
- Implemented AWS services like S3, IAM, and DynamoDB to create scalable cloud solutions.

Web Developer

June 2022 – March 2025

- Core developer in backend development using Laravel, CodeIgniter, and Spring Boot.
- Created and integrated secure REST APIs for Android and web clients.
- Designed RESTful APIs to ensure seamless integration with Android applications
- Implemented AWS services like S3, IAM, and DynamoDB to create scalable cloud solutions.
- Built scalable architectures using Spring Boot and Spring Boot MVC frameworks.

SKILLS

Programming languages: PHP, Python, Java

Frameworks: Laravel, CodeIgniter, Spring Boot

Web & Frontend: HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX

Backend Development: REST API Development, NoSQL & SQL Integration, API Testing

Database Technologies: MySQL, PostgreSQL, DynamoDB

Testing & QA: Manual Testing, API Testing

Languages: English, Hindi, Marathi, Gujarati

CERTIFICATIONS

- **GIT for Beginners**
Udemy (March 2025)
- **Introduction To Jira**
Simplilearn (Jan 2025)
- **Java Spring Framework 6 with spring boot 3**
Udemy (Dec 2024)
- **Java Basics**
Hacker Rank (Dec 2024)
- **SQL Basics**
Hacker Rank (Dec 2024)
- **Linux Training**
Simplilearn (Feb 2024)
- **Introduction to cloud computing**
Simplilearn (Jan 2024)
- **AWS Technical Essentials**
Simplilearn (Dec 2023)
- **Master Laravel 10 for Beginners**
Udemy (Apr 2023)
- **Programming In Python**
Internshala Trainings (March 2021)
- **ADCA (Advance Diploma In Computer Applications)**
Info point computer education (2019 - 2020)

EDUCATION

- **AMITY University Online** **2022-2024**
MCA (Master of computer applications)
CGPA :7.84
- **KUTCH University** **2019-2022**
BCA (Bachelor of computer applications)
CGPA :9.43
2nd Rank from KSKVKU Kutch University
